

Enchantment DAC

Price

\$1,800

Function

High resolution digital play back for televisions and USB music sources.

Available Modules

24 bit 192kHz Upsampling DAC with support for USB and Fiber Optic
Battery monitoring

Interface

Push buttons

Power

36 watts LIPO power supply
20 hours run time

Chassis

5mm 3D printed clam shell
5.75" wide by 4.5" deep by 3" tall
1 pound 2 ounces

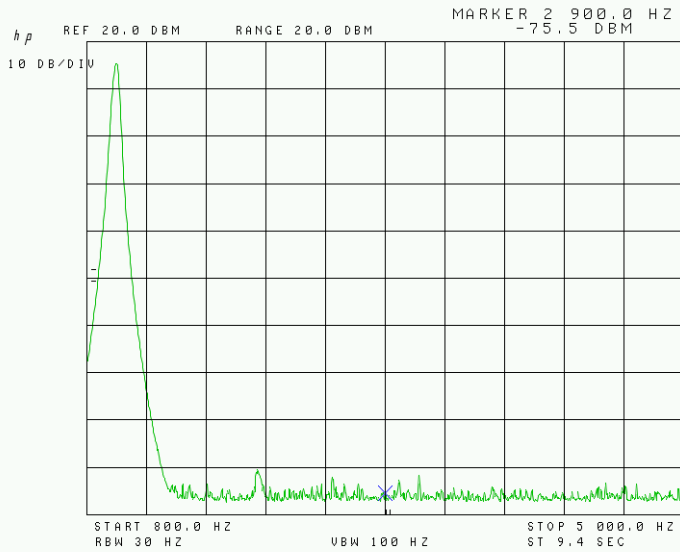

Distortion

The signal generator supplying the 1kHz sine wave measures .0005%. Each spectrum plot is based on a 1 volt rms signal.

Signal Source

The signal source is set at 1 volts and measures .0005%

RCA Preamp Out

Increased harmonics the distortion measures .006%
